

SUMMIT LeARNING

Summit Learning is a free program that provides tools and resources to help schools personalize learning for students.

Summit Learning Instructional Pillars

- **Cognitive Skills:** Students build and demonstrate cognitive skills through collaborative projects.
- **Content Knowledge:** Students work through content and assessments at their own pace. Teachers individualize instruction using real-time data.
- **Goal Setting:** Students plan their academic, college and career goals, coached by a teacher who understands their aspirations.
- **Habits of Success:** Students work with teacher mentors to develop a growth mindset, emotional intelligence, and self-directed learning skills.

Summit Learning Platform

- Online tool for teachers and students that helps facilitate a personalized classroom environment.
- Developed through partnership between Summit Public Schools and Facebook engineers.

Summit Learning Training and Support

(all travel and lodging provided)

- **School Leader Summit** (CA Based): 3-day summit for school leaders to plan change management and prepare for coaching in a personalized environment.
- **Summer Teacher Training** (Regional): 5-day professional development session that prepares teachers to implement Summit Learning instructional pillars.
- **Regional Convenings:** Two conferences during the school year that provide ongoing PD to teachers and school leaders and allow for sharing of best practices.
- **Summit Mentor:** Ongoing coaching from Summit Mentor throughout implementation of program.

Summit Learning Community

- 130 Schools around the country have participated in the program – 70% are district, 25% are charter, 5% are independent.
- Schools in program collaborate with and support one another in person at PD events and virtually via online groups.
- We are currently accepting applications from schools who want to join our 2017-18 cohort. The final application deadline is 6/1/17.
